B2 Users Support Service

B2SUPPORT

Sustainable

- Independent and sustainable centers working within a common framework to develop shared services & policies
- EUDAT is about providing solutions in a federated environment
- Partnerships between legal entities relying on OLAs and SLAs

EUDAT & Life Sciences

- Interoperability pilots with EGI and PRACE
 - Providing seamless access to data & computing resource to life science (ongoing)
- Service customization:
 - Open Data Sharing platform tailored for BBMRI (April 2014)
 - Replication service for toxicogenomics (ongoing)
- Service development
 - Pilot with EBI to delegate raw data (PRIDE) submission to EUDAT (Starting now!)
- Long term partnerships
 - EUDAT is interested in supporting service strategy of RIs in life science through long term partnerships (EUDAT2020)
